DAYS 1-7

Close the gaps

Work the three or four topics with the biggest Total column. That is where the paper lives.

DAYS 8-16

One move at a time

A topic a day, full set, then tick it.
Breakup alone is 58% of Quant — give it the most days.

DAYS 17-25

Mock and autopsy

One mock, then twice as long tearing it apart. An untouched mock teaches nothing.

DAYS 26-30

Papers, not chapters

Past papers only, at exam time of day.
No new theory in the last five days.
